PART 3: Research requiring authorizations or notifications

Indicate whether the proposed research includes:

	YES	NO
Humans, human tissue samples or individual medical data		
Vertebrates, decapods or cephalopods		
Pathogens or genetically modified organisms		
Human embryonic stem cells		

Please note that research on humans, human embryonic stem cells, vertebrates, decapods, cephalopods, pathogens and genetically modified organisms needs authorization and/or notification.

PART-4 (For Indian partners only)**1. List of on-going research projects with the Indian PI:**

Title of the project	Brief description	Duration with dates of commencement and completion of the project	Funding available and source of funds

2. Infrastructure available/required to implement the project:

Facilities	List of items required for the project	If not available presently, how it is proposed to be procured/recruited. Please indicate the source of funding
Equipment		
Manpower		
Consumables and Contingencies		

3. Certified that the following Indian scientists SRF/JRF, Post-Docs are presently affiliated with the University/Institute and will be the official project participants for the entire duration of the project:

S.No.	Name of the project participant	Position held	From	To
1.				
2.				
3.				

4. Please mention Name/Address/Contact details including email address/ area of specialization of 3 possible peer-reviewers of the project proposal.

S.No.	Name and address of the expert	Contact details including email ID	Area of expertise / keywords

Signature of the Indian PI

ANNEXURE I (application format for the scientific project description)

(For Austrian partners see FWF guidelines at http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf)

The joint project description must address the following points:

1 Scientific/scholarly aspects

- Aims (hypotheses or research questions):
 - Relevance to international research in the field (international status of the research);
 - Explanation of how the project could break new ground in research (innovative aspects);
 - Importance of the expected results for the discipline (based on the project described);
- Methods;
- Work plan, project schedule and strategies for dissemination of results;
- Cooperation arrangements (national and international);
- Where ethical issues have to be considered in the proposed research project: All potential ethical, security-related or regulatory aspects of the proposed research project and the planned handling of those issues must be discussed in a separate paragraph. In particular, the benefits and burdens arising from the experiments as well as their effects on the test subjects/objects should be explained in detail.

2 Human resources

- Research-related qualifications of the researchers involved;
- Importance of the project for the participants' career development (principal investigator and project staff members).

3 Broader effects

- Implications for other fields of research;
- Effects beyond the field of research.

4 Financial aspects

- Information on the research institution:
 - Available personnel (not financed by the FWF; usually the principal investigator and national research partners);
 - Available infrastructure;
- Information on funds requested:
 - Concise justification for the personnel requested (type[s] of position[s], description of field of work, extent and duration of involvement in the project);
 - Concise justification for non-personnel costs (equipment, materials, travel and other costs). If equipment is requested, applicants must specify why this does not constitute part of the available infrastructure (see also Appendix I, Section 2.3).

Requirements for academic curricula vitae (CVs) and publication lists

For all researchers involved in the project (i.e. the principal investigator, known researchers on the project staff to be financed by the FWF, and any national research partners), the following information must be provided:

Academic curriculum vitae (no more than 3 pages per person)

- Personal details, address and web site;
- Main areas of research;
- Description of academic career and positions held to date (with brief description of reasons for any career breaks);
- (where applicable) Highest academic prizes/recognition received (no more than 5 in each of the following categories: 5 most important invitations to present at academic conferences; 5 most important academic prizes/awards received; 5 most important peer review activities, editorships and/or memberships in academic organisations);
- (where applicable) Most important research projects funded in the past (**no more than 5**);
- (where applicable) Names and institutions of key international cooperation partners in the last 5 years.

Publication lists

- List of all scholarly publications **in the last 5 years**;
- Separate listing of the **10 most important scholarly publications** in the researcher's entire career to date.
